Thank you for choosing to study at Harrogate College. We know that finding a great career is a top priority for you, and we place as much value and emphasis on employability as you do, providing you with many opportunities to work with local employers on live briefs, and planning time during your studies for you to undertake key work experience.

All of our courses give you the skills needed for you to shine at work and to succeed. We also recognise that learning your way is highly important, and we offer a range of training routes which ensure you can learn in the way which best suits your needs, whether that’s in the classroom or in the workplace.

You are joining us at an exciting time, with brand new facilities that mirror industry standards. The development was part funded by the York, North Yorkshire and East Riding Local Enterprise Partnership.

We are all looking forward to welcoming you to Harrogate College.

Debra Forsythe-Conroy
Harrogate College Principal

The Hull College Group is a uniquely diverse organisation and we take pride in the fact that we put the student at the heart of everything we do. As a Group we are committed to improving the skills, employability and progression opportunities of all our students, by giving you access to the best training, education and employment opportunities, whatever your background.

As part of your study programme, you will develop vital English and maths skills, as well as having the opportunity for a work experience placement during your time with us. We are dedicated to developing ever-stronger relationships with local employers to give you the best possible opportunities within your chosen sector.

The size and scope of the Hull College Group brings a whole range of benefits to our students, not least the opportunity to progress onto degree level at one of our Higher Education sites in Hull, Harrogate or Goole. But we also pride ourselves on the community we have created, where students are valued and supported.

I look forward to welcoming you in September.

Gary Warke MBE
Chief Executive, Hull College Group

Visit our new website and brand new careers searching tool, Career Coach – You can search for specific job roles that you are interested in and find information on the qualifications required, potential salaries and job opportunities in the region. You can even view a selection of live job vacancies in North Yorkshire and the relevant courses offered at Harrogate College to help you land your dream job.

Harrogate College prides itself on ensuring that students leave us with the skills and knowledge you need to begin your career in the industry of your choice, having progressed through the levels of further education and potentially into higher education with us.
Launched in 2015, this new study programme has been extremely successful with a focus on sport, fitness and coaching delivered as part of the Harrogate Town AFC U19 Academy. Students who successfully gain a place in the team will also study on a course of their choosing, at Harrogate College. Academy players will be coached three days a week by Harrogate Town’s UEFA qualified coaches at a training facility and will have the opportunity to train on the brand new 3G pitch at the CNG Stadium.

Garry Plant, Managing Director, Harrogate Town Football Club said: “The Academy set-up based at Harrogate College strengthens the club’s commitment to education, the development of young footballers and all young people who enjoy sport. In addition to producing excellent young footballers to push the club forward it provides young people with more than just a plan A or plan B.”

HARROGATE COLLEGE IS PROUD AND EXCITED TO HAVE TEAMED UP WITH HARROGATE TOWN FOOTBALL CLUB, TO OFFER STUDENTS THE OPPORTUNITY TO PLAY FOOTBALL WHILST STUDYING
WHY CHOOSE HARRINGTON COLLEGE?

91% of our students progress to jobs or further study.

£6m redevelopment.

Brand new industry standard facilities including Kitchens & Salons.

Partnership with Harrogate Town AFC for male & female football academies.

Why choose Harrogate College?
FREE MEALS

If you received free meals at school you will be able to apply for a meal deal card to use here at Harrogate College, if you are aged between 16 and 18. Students aged between 19 and 25 who are subject to a Learning Difficulty Assessment (LDA) or Education Health and Care Plan (EHC Plan) and ESF students aged between 16 and 18 are also entitled to a free meal if they meet the proposed criteria.

ADDITIONAL SUPPORT

The College’s response to Equality of Opportunity is acknowledged by Ofsted as being outstanding and the specialist team of support workers is available to provide dedicated support. It is essential that you notify the College of any learning difficulties or disability prior to starting your course in order for us to provide the relevant support for your studies. Support is also available for any student who requires assistance with English, maths or language skills- our highly trained team will assess individual needs and agree a personal development plan with each student.

SAFEGUARDING

The Hull College Group recognises its legal duties and responsibilities to safeguard and promote the welfare of everyone who attends the College. The Hull College Group works with local Safeguarding Children and Vulnerable Adults Boards and other agencies ensuring our staff are well trained to support anyone who may have concerns about their safety or concerns regarding abuse or neglect. We also have dedicated staff to support you with any welfare or guidance concerns you may have.

COUNSELLING

The Hull College Group Counselling Service provides free, confidential and professional counselling and is available to students at all sites. Anyone can refer themselves, or be referred by a member of staff and can come for counselling around any issue, whether it is personal or related to College. Information can be found via the Harrogate College website or Moodle.

FREE TRANSPORT

Students who are aged 16-19 and studying full or part-time courses may be eligible to apply for a Student Maintenance Allowance. If you are in receipt of an SMA you will also be eligible to receive FREE TRANSPORT as part of the bursary.

New College Bus Routes
Boston Spa - Wetherby - Spofforth - Harrogate College
Bedale - Masham - Kirby Maltzard - Sawley - Harrogate College
Please apply for your seat at Harrogate College’s Student Finance.
It's the start of a new era for Harrogate College following a £6m campus redevelopment that has seen brand new industry-standard facilities opening for the start of September 2016.

FACILITIES

The project, part funded by the York, North Yorkshire and East Riding Local Enterprise Partnership has brought facilities for an expansion of new and current curriculum areas as part of the LEP’s aim to strengthen local economies.

IMAGE ACADEMY HAIR AND BEAUTY SALONS

Harrogate College boasts two brand new hair and beauty salons that mirror industry standards, offering a wide range of treatments and hairdressing to students, staff and to the public, at very competitive prices. Our fully equipped training salons offer hairdressing, styling, nail treatments, beauty therapy, tanning and much more. You can even enjoy a pamper day, including a light lunch in our Bistro on the Park. To book an appointment, please call 01423 878302.

BISTRO ON THE PARK

As part of our “high street” concept, Bistro on the Park is our training restaurant where you can enjoy a variety of mouth-watering and locally sourced meals for a fraction of the price. Open to students, staff and to the public, Bistro on the Park hosts a monthly themed evening, showcasing international dishes. To book a table, please contact Bistro@Harrogate.ac.uk or call 01423 878300.

TECHNOLOGY CENTRE

The build of the Technology Centre has provided a home for the motor vehicle, electrical, joinery and welding workshops, in a purpose built environment that allows students access to top of the range equipment such as the electrical installation booths sponsored by Dunnington Electricals and joinery equipment sponsored by Howdens Joinery.

HG2 CAFE

The HG2 Cafe is a relaxing environment for students to have lunch, socialise and catch up with friends during breaks in the College day. The variety of meals and refreshments combined with the brand new dining area makes HG2 a hive of activity.

360° VIRTUAL TOURS

Take a virtual tour at any time from the comfort of your own home before visiting in person during one of our open events. Visit our website for more tours.
Studying at the University of Essex will enable you to gain experience of work more than just courses. All students will have access to work experience with an employer, as well as regular visits to employer organisations. Local employers are also regularly invited to speak to students about their expectations regarding future employees.

**Personal Development**
All full-time students are assigned a Student Coach, and throughout the year, Student Coaches will deliver a suite of personal development activities which cover themes including:
- Personal Skills Analysis
- Equality & Diversity
- Social Enterprise
- Health and Well-Being
- Careers Exploration & Progression

Alongside this activity, students are also entitled to five one-to-one reviews with their coach which focus on progress against targets including successful completion of the Employability Skills Passport and Seal, future aspirations and pastoral care.

**Maths and English**
Students have an entitlement to study English and/or maths, depending on their prior attainment. This will include Functional Skills or GCSE qualifications. Students with a GCSE grade D or 3 will be required to study a GCSE in that subject.

Those students who are not required to undertake maths and English will undertake an Additional Learning Goal (ALG).

**Additional Learning Goals (ALGs)**
Additional Learning Goals have been developed for those students who have already achieved A*-C or 9-4 GCSEs in English and maths. These ALGs include:
- Industry Skills
- Experience of Work
- Skills Competitions
- Progression to a Higher Level
- Maths for Employability

The ALG you will study will be relevant to your study programme and will meet your individual needs.

**Subject Qualification**
Students can choose from a range of subject areas to meet their study interests and future aspirations. Subject qualifications include courses in Early Years, Sport, Business, Construction, Health & Social Care, Engineering and Foundation Studies. These are examples and this prospectus provides you with information on all the full-time, subject-based qualifications available to you.

**Employability Skills Passport and Seal**
The Employability Skills Passport and Seal is your record of the employability skills and competencies you have developed. Based on the Confederation of British Industry’s (CBI) extensive research with employers, the 7 Employability Skills included in the Passport cover those competencies that make someone employable, including Self-Management, Teamworking, Communication and Customer Awareness Skills.
HOW TO APPLY

The application process begins in October and continues throughout the year. Whilst this will vary depending on the course you are interested in, you will generally follow this path:

Attend one of our Open Events
(see back page for dates)

Complete an application

Join us for a one-to-one meeting and assessment
(designed to ensure you apply for the course that most suits your needs and abilities)

Attend one of our Applicant Days

Receive confirmation of a place

Studies begin the following September

Our friendly admissions team are here to guide you from application right the way through to enrolment. We strongly advise a visit to one of our open events so you get the chance to talk to tutors and see for yourself how Harrogate College can support you on your journey to your dream job.

GOOD LUCK WITH YOUR APPLICATIONS!
**What Can I Study?**

Education is all about progression to higher level study or employment. Use the table opposite to work out which level you are currently working at or which level you expect to be at when you start College.

It’s really straightforward...

For example...

If your grades are, or will be, mainly grades A*-C or 9-4 then you are currently working at Level 2 and should be applying and progressing to Level 3 courses.

Use the table opposite as a guide to which courses are available at each level and what the entry requirements are.

For every course, students must meet the following requirements:

- Have motivation and clear enthusiasm for the subject
- Have a satisfactory reference
- Attend a successful interview
- Complete successful initial assessment tests

Mature students who are over 19 years of age, with relevant experience and/or qualifications, are welcome to apply and will be considered on an individual basis. All students enrolling with us will have the opportunity to study and re-sit GCSEs alongside their course, where necessary, with our English and maths team. Students for whom English is a second language will need to hold the appropriate level of ESOL qualification before starting on their chosen course.

All vocational and Apprenticeship students will be expected to work towards GCSEs at grade A*-C or Functional Skills Level 2 in Maths or English if they do not already hold this level of qualification. Some Apprenticeship frameworks also include Functional Skills in ICT.

---

**Raising the Participation Age (RPA)**

The Education and Skills Act of 2008 requires a young person to stay in education or training until the end of the academic year in which they turn 18. Raising the Participation Age (RPA) requires a young person to stay in education, but this does not necessarily mean staying at school. With Harrogate College you can study in various ways:

**Vocational Qualifications**
- Apprenticeships
- Work-based learning
Many of our programmes offer an Apprenticeship route which combines on and off-the-job training whilst earning a salary! Apprentices earn a wage and work alongside experienced staff to gain job specific skills. Most Apprenticeship training takes place on the job. The off-the-job training varies from day release to studying over a number of days in a block. The amount of time spent studying varies according to the framework. Apprenticeships can take between one and four years to complete depending on the level of Apprenticeship, the Apprentice’s ability and the industry sector. Apprentices are paid from the first day of their Apprenticeship and they’re entitled to the National Minimum Wage. The current minimum wage rate for an apprentice is £3.30 per hour for those aged 16 to 18 and those aged 19 or over who are in their first year. If you don’t yet have the appropriate skills or experience and are aged 16 to 24, a traineeships could provide the essential skills and work preparation training you need to secure an apprenticeship or employment.

Apprenticeship Levels

- **Higher Apprenticeship** (work towards NVQ Level 4 or a Foundation Degree)
- **Advanced Apprenticeship** (equivalent to two A Levels)
- **Intermediate Apprenticeship** (equivalent to five GCSEs grade A-C)
- **Pre-Apprenticeship**

Who are they for?
Apprenticeships are open to all age groups over 16 years, whether you are just leaving school, have been working for some time or are looking to start a new career. You just need to be living in England and not currently be in full-time education.
Enable yourself to go to university with the Access to HE.

Extremely knowledgeable tutors who are experts in their fields.

Throw yourself back into education.

Access to HE
Leaving education before you’ve completed your A-levels doesn’t have to be the end of your hopes to go into the health professions. The Access to Health Professions and Science is a fast-paced course that will teach you a range of subjects and skills that you need to get onto a degree course at universities across the country. Studying laboratory skills, microbiology, medical physics, human physiology and cell biology, you’ll be assessed in a variety of ways to fully prepare for your time in higher education. This course pairs you with a student coach to help your personal development and to ensure that you succeed in your application for your chosen course.

This course can allow you to begin your degree in midwifery, adult nursing, paramedic training, occupational therapy and physiotherapy, as well as a host of other options.

Getting into university without A-levels needn’t be difficult. If you’re looking for a change of career and want to go into higher education to study disciplines in the humanities and social sciences, the Access course gives you a broad spectrum of knowledge across a range of subjects including English, cultural studies, health communications and psychology. With support from a student coach to help you over the duration of this fast-paced course and through your application to university you’ll be on your way to start your career.

From graduating from the Access to Humanities and Social Sciences Programme, you will be able to progress into higher education to study a wide range of degrees, including law, social work, psychology, politics, social sciences, history, English language, English literature, criminology and journalism.

ART & DESIGN

OPPORTUNITIES TO PROGRESS INTO HIGHER EDUCATION WITH HARROGATE COLLEGE

EXCITING LIVE BRIEFS SET BY EMPLOYERS SUCH AS FOUNTAINS ABBEY & STUDLEY ROYAL

BRAND NEW ART & DESIGN STUDIOS INCLUDING PHOTOGRAPHY, FASHION AND INTERIOR DESIGN
If you’re looking to go into the arts, the best place to start is with a Level 3 Art and Design Study Programme. This two-year Programme allows you to explore the various art and design techniques that will help you to select your specialist pathway for higher education. You’ll look at fine art, sculpture, 3D design, printmaking, illustration, photography, animation, fashion, textiles, graphics, architecture, and interior design on this exciting, intensive and fast-moving program, building up your fundamental skills and developing your individual style and techniques in preparation for university. You’ll create a beautiful and convincing portfolio for your application and interview to the University of your choice. From this Programme, you can progress into a HND or Degree Programme, on your way to working as an artist, in graphic design, fashion and marketing, illustration, theatre set design and more.

If you want a creative career where you have to use your imagination, you’ll probably be considering working in the arts. The Level 3 Art and Design Study Programme explores the numerous disciplines in art and design, teaching you the fundamentals and examining through practice which one is right for you. You’ll cover fine art, ceramics, printmaking, graphic design, 3D design, fashion and film, to name a few, alongside your programme of seminars, practical lessons, and gallery visits, teaching you to work at degree level in preparation for your time at university. You will also work on your Employability Skills Passport to prepare you for your role in the arts world. Our students progress to some of the best universities in the country to study courses from fine art to technical theatre and go on to work as graphic designers, writers, in marketing, and in fashion.
Support from experts in their fields such as event planners and bank managers.

Varied trips that allow you to gain an insight into the world of business.

Exciting opportunities for work experience with local employers such as Harrogate Town AFC.
BUSINESS STUDENTS GRILLED BY ENTERPRISE GATEWAY MANAGER NIGEL DAKIN

Business students studying in their second year had their business plans put to the test by local businessman Nigel Dakin.

The Enterprise Gateway Manager of Harrogate Borough Council visited the students at the beginning of the year to offer advice and guidance on how to write their own business plans as part of their ‘Starting a Small Business’ module. Throughout the course, the students had to decide on a small business that they would like to launch, and then produce a full business proposal for this. The next step was to discuss their plans with a business mentor, before being able to present to the bank manager.

“The students all found the process very interesting and helpful to gain valuable advice from an established businessman such as Nigel. Thank you to Nigel for offering his help and time to our students.” – Carol Garland, course tutor.

LEVEL 1
BUSINESS ADMINISTRATION

Working in an office is a reliable and dependable career with most sectors needing office administration staff. To introduce you to what you can expect from your career, the Level 1 Business Administration Study Programme teaches you a range of skills that you’ll be using in an office environment, including learning about business documents, job opportunities and the nuances of working in business and administration. You’ll visit businesses to see how their administrative departments are run, and gain work experience directly linked to business administration to put your skills to the test. You’ll also study maths, English and employability skills to help you find work once you’ve finished your studies.

From this Programme, you can move into a Level 2 Programme on business or IT, progress into an apprenticeship in Business Administration or begin work as an entry level office worker in administration.

LEVEL 2
BUSINESS

The business world has lots of opportunities for the enterprising person. To really learn about how you can find your role and start working up the corporate ladder, the Level 3 Business Study programme teaches you all about the aspects of the business world including finance, working with business software Sage, marketing and human resources. You’ll learn about running a business, supported by tutors and local employers to build up the skills that you need to find your place following the course. With exciting work experience and the chance to develop your employability skills, you’ll be ready for the next step in your professional journey.

Moving into a HND or Degree in business or starting an Apprenticeship, this Programme can also lead to many exciting professional roles in business and business management.

The Enterprise Gateway Manager of Harrogate Borough Council visited the students at the beginning of the year to offer advice and guidance on how to write their own business plans as part of their ‘Starting a Small Business’ module.
If you have an interest in IT, whether gaming, software development, computer systems or web design, the Level 3 IT Study Programme can help you to explore your fascination and build up your skills so that you can turn your passion into a career. You’ll learn about information technology systems, using social media in business, and computer games development, participating in industry visits to gain further knowledge about the area of IT that you want to move into. With work experience linked to your chosen field of interest and the chance to develop your study and employability skills for university and beyond, this Study Programme is the first step in your IT career pathway. From here you can move onto a HND or Degree in IT or related subject or potentially going on to work in game design, interactive media or network engineering.

**LEVEL 3**  
**IT**  
**Level 3 | 2 Years | Harrogate College**

In today’s digital industry, having a good understanding of aspects of IT and its application to business will help you to find a better job role. The Level 2 Computing and Creative Technology Study Programme is designed for learners who are interested in working with computers in a creative or technical role. This all-round Programme covers what it is like to work in the creative media industry with units examining how to build creative aspects. You’ll also cover how to carry out technical support and maintenance on hardware and software and build you employability and study skills as part of the course.

The Programme leads directly into a Study Programme at Level 3 in IT or media production, or into an Apprenticeship working in IT or creative digital media.
CATERING & HOSPITALITY

Real Life Working Environment
Serving Customers in our Training Restaurant

Strong Links with Local Employers such as the Great Yorkshire Show and Harrogate International Centre

Opportunities to Enter Skills Competitions and Win Awards
Hospitality is a demanding yet rewarding sector to work in. At Harrogate College, we are proud to offer the Level 1 Hospitality Services where you’ll be working in our newly built commercial training kitchens and restaurant. You will serve and cook for the general public in a range of events, lunches, evening meals and parties, learning your trade on the job alongside the theory you need to know. You’ll cover food safety, food preparation skills, and work on improving your maths, English and employability skills. With work experience in one of Harrogate’s many hotels or restaurants, you’ll be ready for the next step in your career.

Whether you want to work as a commis chef or as a waiter, this course prepares you for either front or back of house. You can also further your studies into a Level 2 Programme.

Level 1

LEVEL 1

HOSPITALITY SERVICES

Level 1 1 Year  Harrogate College

Love food? Then you’ll love working with food in your future career. The Level 2 Hospitality Services Study Programme teaches you about serving and preparing food for a variety of settings. Working with fresh local ingredients and in our newly refurbished commercial training kitchens and bistro, you’ll learn essential skills for working in the sector including how to correctly cook and serve food and drinks, and how to work effectively as part of a team. The Programme includes trips and work experience to restaurants alongside improving your maths, English and employability skills to help you in your future career path.

From this course, you can move into a Level 3 Study Programme in a food industry related subject, or gain work as a trainee or commis chef, waiter, wine waiter, barista or bar person.

Level 2

LEVEL 2

HOSPITALITY SERVICES

Level 2 1 Year  Harrogate College

From this course, you can move into a Level 3 Study Programme in a food industry related subject, or gain work as a trainee or commis chef, waiter, wine waiter, barista or bar person.
If you want a fun and fast-paced career and love working with food, then catering could be for you. The Level 2 Professional Cookery Study Programme teaches you a comprehensive range of cookery and food preparation skills, including the preparation and cooking of meat, vegetables, fish dishes, sauces and desserts. You’ll learn how to work in a safe and clean kitchen environment, studying food hygiene and health and safety. Working in our newly refurbished commercial kitchens, you can also gain additional work experience in a local business and start to develop your leadership skills. There is also the opportunity to take part in competitions to showcase your talents.

This Programme leads directly onto the Level 3 course. You’ll also be ready to go out and start your career as a commis chef or chef de partie on completion should you choose.

If you’re looking to really specialise as a chef, then the Level 3 Professional Cookery Study Programme teaches you the advanced skills that you’ll need in the kitchen. You’ll learn about patisserie, baking, the cooking of game, meat, hot and cold sauces, soups and sauces and more, as well as health and safety legislation that you need to know to work in the catering industry. As part of the course you’ll also develop key employability skills such as working in a team and study to improve your maths and English.

This Programme can help you if you’re looking for work as a junior sous chef or as a chef de partie. It can also start you on your path to further study if you’re interested in specialist pathways such as butchery or becoming a patisserie chef.
CONSTRUCTION

Opportunities to specialise in your chosen field, such as joinery or bricklaying.

Work with local employers such as Leeds City Council.

Working with modern equipment and machinery, reflecting industry standards.
With the government’s house building initiatives, there’s never been a better time to get a job working in construction. The Level 2 Brickwork Study Programme teaches you a range of intermediate skills for becoming a bricklayer. You’ll learn about how to construct cavity walls, solids walls and working platforms. You can gain hands-on work experience working on projects in the community on derelict houses, with the chance to demonstrate your skills in competitions. The course also supports you in learning additional industry-sanctioned employability skills as well as improving your maths and English.

This Programme allows you to start work as an entry level bricklayer, or you can learn more advanced techniques by progressing onto the Level 3 Study Programme in Brickwork or as an Apprentice.

The top level of study in bricklaying, the Level 3 Brickwork Study Programme teaches you the advanced skills that you’ll need to know as a professional construction site worker. Covering how to build chimneys, arches, and fireplaces, as well as how to repair and maintain brickwork, this comprehensive course covers the health and safety legislation that you’ll need to know when working on site. Work experience also provides you with vital hands-on practical knowledge. You’ll cover additional vital skills as part of our Employability Skills Passport, preparing you for your career in the construction industry.

Following this course, you’ll be fully prepared to work on-site as a bricklayer. You could also progress into an exciting and fulfilling career on site by becoming an apprentice.

If you’re interested in joining the construction industry, it would be a great benefit to you if you already have a range of skills that you need on site. The Level 1 Multi Trade Study Programme can help you to make a decision about which trade is for you as you experience a range of disciplines from brickwork through to tiling and plastering. You’ll also learn how to fit skirting boards, architraves and doors, building up your repertoire of skills to prepare you for your role on site. You’ll work to improve your maths and English as well as building up key employability skills to help you find work in a trade. This Programme leads to Level 2 study in joinery or brickwork, or directly into an exciting and fulfilling career on site by becoming an apprentice.

The Level 2 Multi Trade Study Programme will be learning in our brand new £6m campus facilities and will cover structural carpentry including walls and floors and staircases. The knowledge will focus on general building methods, estimating and site procedures. You will also have the opportunity to go on trips to support your knowledge and understanding and broaden your student experience.

This Programme allows you to start work as an entry level carpenter, or you can learn more advanced techniques by progressing onto the Level 3 Study Programme in Bench Joinery or as an Apprentice.
With a skills shortage affecting the construction trade, there is a high demand for trained electricians. Working in electrical installations is a challenging and interesting career option if you’re organised, with a logical brain and enjoy working on practical tasks. The Level 2 Electrotechnical Installations Study Programme teaches you about electrical installation and electrical science, while covering what you need to know about the electrical trade and its relationship with other trades. You’ll learn about health and safety and how to work to British standards, developing your maths, English and employability skills along the way.

This course leads directly into a Level 3 Advanced Electrotechnical Installations Study Programme or onto a Level 3 Advanced Electrical Apprenticeship as you work to become an electrician’s mate, electrician, or an electrical engineer.

Completion of this course leads to paid work as an entry level joiner. You could also go on to further study as an Apprentice in construction trades.

If you’re interested in woodwork, the Level 3 Bench Joinery Study Programme teaches you the range of practical skills that you’ll need. You’ll study how to produce high-quality joinery items, how to use professional machinery and equipment to carry out work including framed work such as doors and windows, staircase construction and how to build cabinets for kitchens, bedrooms and bathrooms. You’ll learn about the theoretical and practical aspects of working with wood and working in the construction industry. Working in the construction industry to gain practical experience as well as building up your maths, English and employability skills, you’ll be ready to take the next step in your career pathway.

Completion of this course leads to paid work as an entry level joiner. You could also go on to further study as an Apprentice in construction trades.

DEVELOP INDEPENDENT LIFE SKILLS SUCH AS COOKING AND SHOPPING

GAIN THE CONFIDENCE AND SKILLS NEEDED TO PROGRESS INTO FURTHER EDUCATION

IMMERSE YOURSELF IN THE COMMUNITY, WORKING ALONGSIDE LOCAL EMPLOYERS

FOUNDATION STUDIES
If you are a student who needs additional support for your learning, if you have learning difficulties or a disability, the Level Entry Level 1 and Entry Level 2 Independence Study Programme helps you with moving into the world of work while being supported by tutors and in work. You’ll learn all about food preparation and hygiene, how to work as part of a team and how to deal with customers, taking money and providing customer service. To put your skills to use, you’ll work one day a week supervised in a local cafe. You’ll also work on your Maths and English skills at an appropriate level, and develop interpersonal skills for daily life and work.

You can progress from this Programme onto an Entry Level 3 course or gain further work experience in catering and retail.

If you need support to help you find and keep work, the Work Ready Entry Level 3 Study Programme could help. Aimed at those with a learning difficulty or a disability, you will learn the skills that you need and build up your self-esteem and confidence. Working in a catering environment on a placement for two days, you can build up practical skills in food preparation and hygiene, work in a team and improve your customer service skills. You will be closely supported by tutors throughout the course. English and Maths are built into the course and you’ll also boost your interpersonal skills for daily life. This Study Programme can provide a stepping stone into the catering field.
BRAND NEW HAIR AND BEAUTY SALONS THAT MIRROR INDUSTRY STANDARDS, AS PART OF OUR £6M CAMPUS REDEVELOPMENT

HANDS ON EXPERIENCE IN OUR TRAINING HAIR AND BEAUTY SALONS

BE YOUR OWN BOSS WITH THE SKILLS ACQUIRED FOR A LIFETIME CAREER IN THE HAIR AND BEAUTY INDUSTRY

HAIR & BEAUTY
Hair & beauty

Working in a hairdressing salon is a fast-paced and exciting career. To get you there, the Level 2 Hairdressing Study Programme teaches you a wide range of skills that you'll be using every day in your role as a hair stylist, from shampooing and how to look after a client’s scalp to cutting, styling and colouring hair. You'll also learn key employability skills for the hairdressing industry and wider sectors while building up your maths and English abilities. With work experience in a salon or a customer service role, you’ll be well prepared by the Programme to take the next step on completion of this course.

From here, you can go on to work in a salon with an Apprenticeship or as a junior. You could also go on to further studies to learn more advanced techniques with our Level 3 Programme.

In hairdressing if you want to work in the top salons, you need to able to do more advanced hair styling techniques. The Level 3 Hairdressing Study Programme can improve your prospects of finding work by growing your talents to get you into the best salons. Teaching you how to work creatively to cut women’s hair, apply colour and colour corrections, and how to come up with avant garde styles, you'll get the opportunity to work in our new on campus salon and in wider work experience. The Programme teaches you further maths and English skills. You’ll work on your Employability Skills Passport to increase your practical job skills for the industry.

The course can be the first step in your becoming a senior stylist or running your own salon. Further study can be done with a HNC/D in Hair and Beauty Management.
If you’re looking to work in the beauty industry, then the Level 3 Beauty Therapy Study Programme teaches you the advanced skills that you will be expected to know. From body and aromatherapy massage through to tanning and Indian head massage, you’ll learn practical skills as well as how to conduct yourself with good customer service in the beauty salon. You’ll do work experience in the beauty industry to put you skills to the test in a professional environment and also take part in our Employability Skill Passport Programme to gain wider skills for the workplace for when you start work.

You’ll be prepared to start work in a spa, hotel or salon as a beauty therapist on graduation. If you want to progress in your studies further, you can go onto a HNC/D in Hair and Beauty management.
HAIR AND MEDIA MAKEUP

If you want to work backstage or on set doing hair and makeup for performers, the Level 2 Hair and Media Makeup Study Programme teaches you a comprehensive range of skills to get you started. You'll study hairdressing skills including how to style and colour hair, how to do photographic makeup, body art and tanning, alongside skills you'll need for working with people in the industry including client consultation, care and communication. With help for your maths and English as part of the Programme and our Employability Skills Passport, this course prepares you for moving into work.

You'll complete this Programme with a broad spectrum of skills for working on makeup and hair for performance and photography. You can start work on set or backstage, or continue your studies up to Level 3.

MEDI A AND THEATRICAL MAKEUP

Learning the skills to make performers look good under lights and cameras, the Level 3 Media and Theatrical Makeup Study Programme prepares you for work behind the scenes in film, television and a variety of settings. You'll study advanced hairdressing skills, body art, airbrush makeup, theatrical makeup and special effect makeup, learning how to properly apply prosthetic pieces - all the advanced skills that you need in your future exciting career. You'll also build up wider skills such as communication skills, working as a team, and working with clients and colleagues.

You can continue from this course in to a Level 4 Programme such as a HND or Degree, or can begin your career in television, theatre, or as a makeup artist in a salon.
HEALTH & SOCIAL CARE

GIVE YOURSELF SKILLS TO MAKE A DIFFERENCE TO PEOPLE’S LIVES

OPPORTUNITIES TO UNDERTAKE WORK EXPERIENCE WITH A VARIETY OF LOCAL AND REGIONAL EMPLOYERS

PROGRESS INTO A VARIETY OF CAREERS IN THE HEALTH AND SOCIAL CARE SECTOR

give yourself skills to make a difference to people’s lives

opportunities to undertake work experience with a variety of local and regional employers

progress into a variety of careers in the health and social care sector
INTRODUCTION TO HEALTH CARE/EARLY YEARS

The health and social care sector looks after a range of people from the very young to the very old. The Level 1 Introduction to Health Care/Early Years Study Programme helps you to develop your awareness of the different type of provisions across the sector to help you to choose your path. You’ll study the principles of care, gain awareness of issues in protecting and safeguarding, learn about equality and inclusion as well as studying human physiology and development. The main Programme is supported with additional maths, English and employability skills to further develop your own growth. Successful achievement will enable you to move onto the Level 2 Programme in Introduction to Early Years Education and Care or onto our Level 2 Health and Social Care Programme.

INTRODUCTION TO EARLY YEARS, EDUCATION AND CARE

Becoming an early years educator is a rewarding and highly enjoyable career option. The Level 2 Introduction to Early Years Education and Care Study Programme can help you start out on your pathway to looking after children, teaching you the important skills and knowledge that you’ll need to know. You’ll study child development, communication and safeguarding practices for working with young people, with hands-on work experience in a range of settings working with children from birth to five where you’ll develop activities for children, and supervise them in both nursery and pre-school. You’ll also study maths and/or English to improve your own abilities alongside the course. This course can lead into a number of Level 3 Programmes in health and social care, child care and more. You can also find work as an assistant working with young children.
Supporting and educating children to help them reach their potential is a fantastic career option. The Level 3 Child Care and Education (EYE) Study Programme allows you to reach the highest level in practical childcare skills, allowing you to work unsupervised in a range of settings from nursery to in-school care. You’ll learn how to develop and observe activities, learn about child health and development, how to ensure a safe environment and about professional practice. This Programme allows you to work as a level 3 practitioner. You could also consider further studies if you are interested in management positions in the childcare sector. You may decide that you would like to progress to Higher Education to study Primary Education or other similar degree pathways. This course carries a maximum of 420 UCAS points.

Working in professional health and social care settings offers a range of rewarding careers. Working in health and social care is just that. The Level 2 Health and Social Care Study Programme gives you experience in a range of health and social care subjects. You’ll study theories in human growth and development, protection and safeguarding, and the care of the elderly. With substantial work experience in two placements and the opportunity to develop your knowledge and skills in the classroom and workplace, the main Programme is supported by the development of your maths, English and wider employability skills. The Programme supports your progression up to a Level 3 Programme in college or in an Apprenticeship. You can also find employment in the health and social care sector, in roles such as healthcare assistant or carer.

If you have experience in health and social care and want the opportunity to improve your skills in the caring professions, the Level 3 Health and Social Care Study Programme allows you to gain hands-on experience and develop your understanding of the industry in a balanced mixture of practical and classroom work. You’ll study the care of children, infection prevention and control, anatomy, physiology and psychology. Wider employability skills are also embedded into your course in addition to UCAS applications and CV’s. This Programme prepares you for higher education course in related fields of study with a foundation of knowledge and skills. You can also continue in your role in the care industry or apply for promotion.

The annual Nidderdale and Pateley Show is a fantastic combination of all things agricultural, usually signifying the end of the summer and our professional Child Care students were invited by Sunflowers Nursery to entertain in the family activity tent. 17,000 visitors are predicted to flock to Pateley Bridge each year, so the event provides a fantastic opportunity for Harrogate College’s students to get stuck in with work experience in an unusual setting. Last year, the team of students decorating the Early Years Educator course were decorating biscuits, giving out balloons and making Popes out of Play Dough all day, allowing the parents to enjoy the show. The day spent at the Nidderdale and Pateley Show will go towards the students achieving hours of work experience that they need to complete, as what better way to put the skills learned in the classroom into action that in a setting such as this!
EXTREMELY KNOWLEDGEABLE TUTORS WITH YEARS OF EXPERIENCE OF WORKING IN THE INDUSTRY

A GREAT WAY TO SUBMERGE YOURSELF IN THE MOTOR VEHICLE INDUSTRY

BRAND NEW MOTOR VEHICLE WORKSHOPS AS PART OF THE £6M CAMPUS REDEVELOPMENT
Working with cars is a satisfying and well paid career choice if you’re the type of person that enjoys working with their hands. The Level 1 Light Vehicle Study Programme covers some of the basics that you’ll need to know to start your career, including how to identify the equipment, parts and tools that you’ll be using on a regular basis for vehicle maintenance, as well as health and safety for working in a garage. You’ll gain valuable work experience in the automotive industry and build up your wider skills for the workplace with our Employability Skills Passport preparing you for your future role in the sector.

This Study Programme leads directly onto the Level 2 Programme to grow your knowledge and enhance your skills. You could also begin an Apprenticeship in the motor trade.

Gaining the specialist technical knowledge that you need to know to work in the motor trade is the first step in your career. The Level 2 Motor Vehicle Study Programme teaches you about job roles within the sector, materials and tools that you’ll be using, and on-the-job health and safety. You’ll learn about vehicle electrical systems, transmission and chassis systems, and how to replace engines and their components. To ensure you’re well prepared for the world of work, Harrogate College also offer alongside your Programme help with your maths, English and wider employability skills for the sector.

From this course, you can begin work in the motor trade at entry level as a service technician or diagnostic technician, or you can progress your studies up into our Level 3 Study Programme.

LEVEL 2

MOTOR VEHICLE

Level 2 1 Year

Harrogate College

LEVEL 1

MOTOR VEHICLE

Level 1 1 Year

Harrogate College
The motor trade is thriving and for your chance to be a part of it, the Level 3 Motor Vehicle Study Programme gives you a comprehensive look at all aspects of the motor trade and the practical skills that you’ll need to diagnose and repair motor vehicles. You’ll understand engine faults, transmission issues, chassis issues and be able to fix electrical problems in cars. You’ll be trained in customer care and take part in team building exercises to prepare you for working in a garage or in a related field working with machines. 

You can progress to university level in a range of subjects with UCAS points, or start a Modern/Advanced Apprenticeship. You’ll also be given guidance in how to join the Royal Electrical and Mechanical Engineers (REME) core of the army should you want to move into uniformed service.

Motor Vehicle Student Off the Starting Grid for Work

Motor Vehicle student Louise Claxton has secured a job as Junior Sub Assembly Engineer at Ginetta after studying at Harrogate College for two years. “I’ve always wanted to be a mechanic as I’ve grown up around cars. “In the future, I’d like to own my own racing business, so the knowledge and skills I’ve learned at Harrogate College have put me on the right track to achieving that goal. “Ginetta offer young people such as myself fantastic opportunities to begin a career within the racing industry,” added Louise. “I can’t wait to put the skills I have learned into action.”
Performing arts & media

Real life performing arts experience, on stage and behind the scenes

Valuable creative workshops provided by visiting specialists

Take part in at least four annual shows, performing to the public
Performing or Production Arts

Level 2

Improving your singing, dancing and acting skills as part of the Level 2 Performing or Production Arts Study Programme gives you the opportunity to try out and improve your skills that you’ll utilise on stage or on set. You’ll appear in scripted plays and musical theatre projects, work in a range of venues and roles, and get to experience life as a professional by doing work experience in the performing arts sector. With accompanying maths, English and employability skills supporting the Programme, you’ll develop your abilities ready for the next step in your exciting career. Following on from the Level 2 Programme, you can move up to the Level 3 Performing and Production Arts Study Programme, helping you to gain roles in TV, theatre and the entertainment industry.

Level 3

Working as a performer is a career option for those that are talented and dedicated to their art. The Level 3 Performing or Production Arts Study Programme will help you to develop your talents for the stage, whether singing, dancing or acting. You’ll learn a range of dance styles including jazz, tap, ballet and contemporary, study improvisation and scripted acting, and take part in a number of practical workshops to help you prepare for working on stage or on camera. The Programme helps you prepare pieces for auditions for stage school or for university as well as giving you work experience helping you boost your CV. This Programme can help you with becoming a trained actor, dancer or singer. You can go on to set up your own stage company or become a teacher after studying a performance-related degree.
OPPORTUNITIES TO TRAVEL ABROAD WITH THE COURSE BUT TO ALSO STUDY ABROAD UPON COMPLETION

TAKE PART IN A RANGE OF SPORTING COMPETITIONS BOTH INTERNALLY AGAINST PEERS BUT ALSO EXTERNALLY

EXCITING AND VIBRANT PARTNERSHIP WITH HARROGATE TOWN FOOTBALL CLUB

SPORT
If you’re interested in sport, the human body and being active, the Level 3 Sport Study Programme gives you a rigorous understanding of the elements that you’ll need to know to get into a career in the health and fitness industry. You’ll study anatomy and physiology, learn about coaching techniques and how to improve people’s performances in sports and in the gym. You’ll also study sports development including provision for disabilities and for young people. You’ll do work experience tied directly to the sports industry and work on your maths, English and additional employability skills alongside the main Programme. This Programme can lead directly into a Degree in a sports related subject such as a BSc (Hons) Physical Education. You can also get a role in the industry at entry level as a sports development officer, sports coach or a fitness instructor.

Level 3
2 Years
Harrogate College

FANTASTIC COLLEGE TO GO TO. YOU LEARN A LOT AND YOU MAKE AWESOME NEW FRIENDS.

Harrogate College sport students Angus Pitchford & Chris Lythe competed at the AoC National Sport Championships of Tyne & Wear in the Badminton Men’s Doubles finals representing the Yorkshire & Humber region in April 2016. With ten other regions represented at the Championships including Scotland, Wales, North East, North West, Eastern, East Midlands, West Midlands, London, South West and South East the competition, and standards couldn’t have been higher.

“To say they are within the top ten in the country in Badminton Men’s Doubles at College level is a phenomenal achievement and I’m so proud of them.” – Sport Tutor Andy Reah.

BADMINTON DUO REPRESENTS YORKSHIRE AND HUMBER IN AoC NATIONAL SPORT CHAMPIONSHIPS
UNIFORMED PUBLIC SERVICES

- Very hands on and practical courses, covering a variety of public services
- Exciting activities to enjoy such as riot training with the police, gorge scrambling, abseiling, residential, skiing and overseas trips
- Excellent exposure to current serving personnel including the army, royal marines, police, fire service and prison service
Are you interested in the uniformed public services (UPS) such as the police, the RAF or the fire service? You can learn all about these services and how you can progress into them on the Level 2 Uniformed Public Services Study Programme. You’ll get the chance to take part in a range of outdoor adventurous activities and a two day expedition, developing your ability to work as part of a team, your leadership skills alongside working on your own fitness and discipline. The Programme allows you to engage with a range of public services personnel from different walks of life. You’ll do work experience in public service and enhance your CV with additional study in maths, English and our Employability Skills Passport. This course leads onto the Level 3 Programme or an application into employment in the UPS.

A career in public services takes hard work, dedication and the willingness to work as part of a team. The Level 3 Uniformed Public Service Study Programme can instil these qualities in you while working on the core knowledge that you’ll need to start your career. You’ll study leadership and team work, government policies, and about citizenship and diversity. We’ll go on outdoor and adventurous expeditions; on land and on water. You’ll get the opportunity to engage with a range of public services personnel from different walks of life to help you to plan your next career move. With our Employability Skills Passport, you’ll also develop wider skills to help in your future role.

You can apply to go straight into employment in a UPS following this course or do further studies at University in criminology, law or associated disciplines.
**JARGON BUSTER**

**ACCESS COURSE**
Entry routes into Higher Education (HE) designed for mature students who are aged 19 and over.

**APPRENTICESHIP**
A combination of work and study. Apprentices work for an employer and earn a wage, but go to college usually for one day each week to learn relevant skills and gain nationally recognised qualifications. They can take between one and four years to complete depending on the industry and employer.

**BTEC**
Business and Technology Education Council (BTECs) qualifications are work-related and vocational courses, taking a practical approach to learning to allow students to progress to further and higher education.

**Bursaries**
A fixed amount of money to help students fund their college costs. Some bursaries will help with the cost of fees or living costs and some for both.

**Enrolment**
The process by which a student is accepted onto a course and has confirmed their place.

**ESOL**
English for speakers of other languages (ESOL) are courses for people who speak or are learning English as their second language. This is a practical course that will teach students certain topics that will help them deal with everyday situations.

**FURTHER EDUCATION (FE)**
Education undertaken after the age of 16 and GCSE level, for example Apprenticeships or BTECs.

**HIGHER EDUCATION (HE)**
Education undertaken at university level such as a Foundation Degree, Degree or HNC/D.

**NVQs**
National Vocational Qualifications (NVQs) allow students to learn practical, work-related tasks designed to help them develop the skills and knowledge to do a job efficiently based on national standards for a range of occupations. NVQs are for those students wanting to learn new work-related skills from scratch and for those who want to develop their existing skills as well as gain a formal qualification.

**HULL COLLEGE GROUP**
This is the umbrella organisation of which Harrogate College forms an integral part, alongside Hull and Goole Colleges.

**Jargon Buster**
Learning coaches
These provide in-class support for students with learning difficulties and disabilities and have specialist subject knowledge in the areas in which they work.

**Safeguarding**
Protecting individuals from a range of threats, including bullying, drug and alcohol misuse and the inappropriate behaviour of others, as well as health and safety issues.

**UCAS**
The University and College Admissions Service (UCAS) is responsible for managing applications to higher education courses in the UK. For all full time HE programmes, students need to apply through UCAS. For part time courses, students can apply directly to the College.

**Work-based Learning**
Programmes aimed at helping students to prepare for work, which include teaching or learning provided in connection with a person’s employment, whether delivered by the employer in the workplace or at College. It covers all levels of ability from entry level to postgraduate. It provides students with the vocational skills and knowledge they need to progress in their chosen career.

Hull College Group has taken reasonable care to ensure that the information contained in this prospectus is correct at the time of going to press. Prospective students should be aware that it is sometimes necessary to cancel or modify courses prior to commencement due to low enrolment or funding changes, including (but not limited to) course content, dates, times, fees and entry requirements. Prospective students should confirm all details with our Course Information Team prior to enrolment and commencement on a course or entering into any other financial commitment. You may also request a copy of the Hull College Group Fee Policy 2017/18. If a student or prospective student has outstanding fees from a previous course, enrolment will be refused. If a course is cancelled by the College prior to commencement, Hull College Group will use reasonable endeavours to offer a suitable alternative course. If a student does not wish to accept, or Hull College Group is not able to offer an alternative course, the student will be entitled to withdraw and may receive an appropriate refund. Where a student is unable to continue, refunds will be made only in exceptional circumstances and at the discretion of the College. All requests for refunds should be submitted in writing. Hull College Group shall not have any further liability.
